

Fitting Room Doors

Combination Door Company has for decades been regarded as the premier manufacturer of custom louver & panel stile and rail fitting room door products, with capabilities and lead times which leads the industry.

The Retail Environment

CDC is the preferred manufacturer vendor for many national & international retail & specialty shops which include Macy's, Bloomingdale's, Kohl's, and Frederick's of Hollywood to mention just a few.

Full Service Provider

Our products are manufactured to your specifications whether provided to us by your in house design group or created by our engineering department, with all CADD details provided by CDC. We want to be your full service provider which includes:

- Unlimited wood species choice
- Coordinated jambs and frames
- Complete machining capabilities
- Custom designer glass options for the special uniqueness
- Factory pre-finishing to include paint or stain requirements
- Commercial hardware in many design and color choices, all with a 10 year warranty
- Facilitate direct ship with expedited lead times

Folding Doors

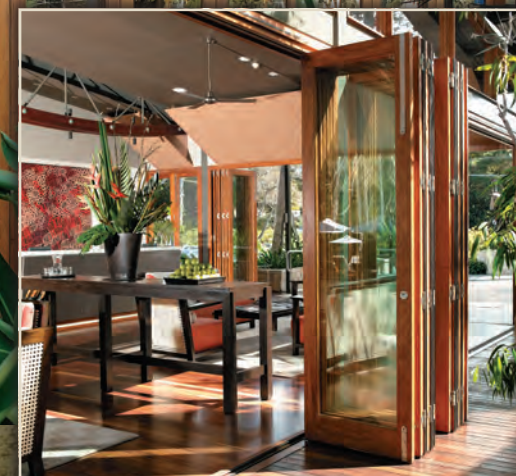

Combination Door Company is excited to introduce our new folding door & window system utilizing Centor's bifold hardware and track components. From private residences to the most ambitious store front, restaurant or commercial project, the benefits to the end user in flexibly managing their space to suit lifestyle or business has created an overwhelming demand for this elegant bifold system.

Flexibility

Incredible capabilities creates a wide range of alternatives for every potential application. From the smallest folding window to a wall of glass measuring 57' wide and 13' tall, all of which folds away in seconds effortlessly. Engineered to withstand the most severe weather these systems are just as suited to indoor use, utilizing Centor's flush floor channel, to separate, privatize & sound proof interior spaces.

High Performance

Unprecedented testing on the Centor components have shown them to meet or exceed required air infiltration, rain and wind resistance, noise and temperature transmission. In fact, doors utilizing Centor's E4 system have been certified to stringent Miami Dade County hurricane standards, the toughest testing process anywhere in the world.

Commercial Doors & more...

Although we have been known as a premier source for residential door products since founded in 1912, Combination Door Company has emerged as a leader in the door industry within the commercial market place.

Unique Product Mix & Capabilities

Innovation, quality and market responsiveness has provided CDC an extreme competitive advantage when it comes to your commercial door needs. With the capabilities & product to provide doors for interior spaces as well as exterior applications, product such as our folding door system or custom glass, we can help create an environment that uniquely exclusive to your design.
