

#1 EASY CHANGE WOOD COMBINATION DOOR

DOWELED CONSTRUCTION

NET SIZE THAT DOORS MAY BE TRIMMED

- * 5/8" off top rail
- * 2-1/2" off bottom rail
- * Stile trimming beyond 1/4" could expose core stock.
If initiated, trimming 3/4" from each stile is permissible.

*NOTE: The wood dowels are 1/2" in diameter and are on 2-1/4" centers. The door may be trimmed through the dowels, although some gaps may appear. Trimming one dowel should not affect the door's strength. (For 7-1 doors, add 4" to the bottom rail.)
